## Divine intervention, engineered

### SAFETY AND DRIVER ASSIST FEATURES

**Blind Spot Warning** Wait – was that a car over there? Kicks with Blind Spot Warning can help keep an eye on the blind spot area and can give you an alert if it detects a vehicle hiding there.<sup>16</sup>

**Lane Departure Warning** Hold it right there. Lane Departure Warning helps make sure you change lanes only when you mean to. If the system detects that you're drifting over, it'll warn you.<sup>17</sup>

**High Beam Assist** Another bright idea. High Beam Assist helps your late-night drives, turning down your high beams when it senses oncoming traffic.

## Technology that looks out for others

### Intelligent Emergency Braking with Pedestrian Detection

Monitors your speed and distance between you and the car ahead and can let you know if you need to slow down. It can also automatically engage the brakes to help avoid a frontal collision or lessen the severity of an impact. And when it detects a pedestrian in the crosswalk, it can stop you in your tracks.<sup>13</sup>

## Technology that watches your back

**Rear Automatic Braking** Trash pickup days can be an obstacle course. Not to worry. Kicks also watches out behind you for large stationary items you might not see. If it detects an item and you fail to stop, it can automatically engage the brakes.<sup>14</sup>

**Rear Cross Traffic Alert** Fear no parking lot. When you're backing out of a space, Rear Cross Traffic Alert watches behind your Kicks and can warn you about cars it detects creeping up on you from either side.<sup>15</sup>
